The young ones will dressed in pink colour and carry any pink coloured toys in their online class. All the pink colour objects will be displayed in the class by class in charge and children will introduced to different shades of pink. Bulletin Boards were decorated with bunny masks and posters depicting the impact of pink colour in our lives.

The tiny tots will be taught in a variety of hands on activities related to the identification of pink colour. Painting and colouring activities reinforced the concept of colour in children.

The aim of the activity is to make the young ones identify pink colour in the objects they see around them. Children will explain that pink colour signifies love, beauty and kindness. They will be excited to learn that pink colour could be obtained by mixing red and white.Beside all this teachers of kindergarten along with their coordinator can decide more activities on it and celebrate with their students
